Norwegian Offshore Platform

The first two wells were successfully completed in February 2021, with further operations ongoing for the next two & a half years.

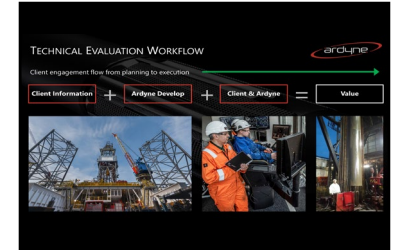

Ardyne are committed to providing our clients with comprehensive Full Service P&A support for all well scenarios.

The services cover, but are not limited to;

- Fishing
- Casing Cut, Jack & Pull
- Section Milling
- Casing Milling
- Subsea Casing Hanger Milling
- Casing Clean Out
- Packer, Production Packer & Liner Hanger Removal
- ASV Retrieval

The workscope includes a bespoke tooling / project plan to retrieve 21 ASV's during the 24 well campaign.
